

REQUIRED PLANS

Provide 3 sets of plans drawn to scale, on minimum 18x24 sheets which include the following:

1. PLOT PLAN & PROJECT DATA TABLE

- * location of any adjoining street, sidewalk, parkway, walkway or alley
- * dimensions of property (lot size) and proposed addition
- * location and uses of existing building and proposed addition
- * distances from proposed addition to existing buildings and property lines
- * location of all underground or overhead utilities and size of sewer
- * project data table showing new & existing use, occupancy, area, stories, height, sprinklers, etc.
- * dimensions of adjacent alley or walkway if there is one

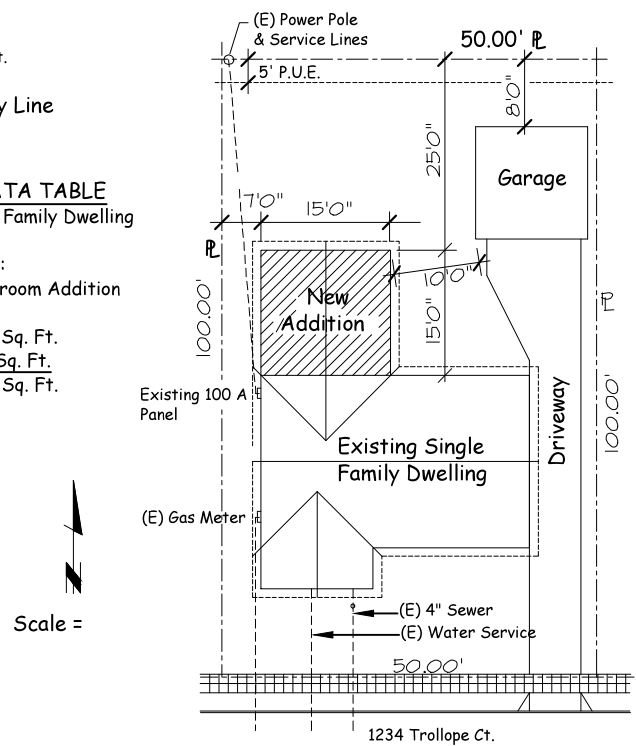

PL = Property Line
(E) = Existing
(N) = New

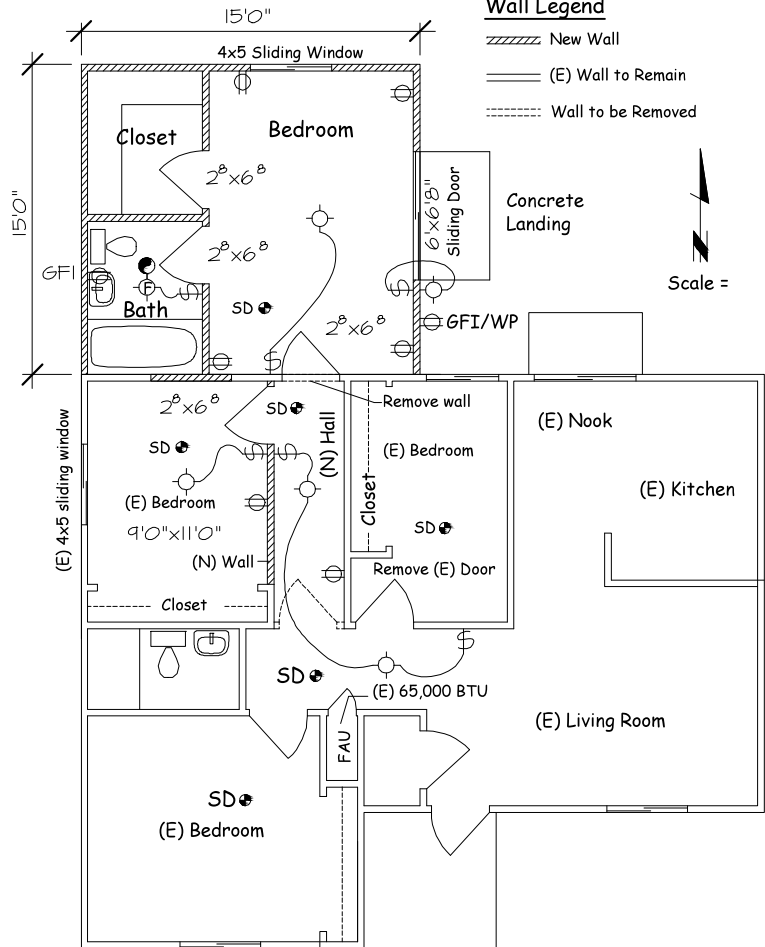

PROJECT DATA TABLE

(E) Use: Single Family Dwelling
(N) Use: Same
Scope of Work:
225 sq. ft. Bedroom Addition
Sprinklers: No
(E) Area: 1250 Sq. Ft.
Addition: 225 Sq. Ft.
Total: 1495 Sq. Ft.

EXAMPLE PLOT PLAN

EXAMPLE FLOOR PLAN

2. FLOOR PLAN

- * dimensions of new exterior walls, and interior partitions
- * dimensions of existing adjoining rooms, and window sizes
- * locations and sizes of new windows, doors, stairway and plumbing fixtures
- * complete floor plan of existing building
- * show all smoke detectors and carbon monoxide detectors
- * location and scope of any other proposed work such as any windows and doors to be altered
- * show all electrical outlets, lights, switches, fan, wall heaters, fireplaces, etc.

3. FRAMING PLAN

- * types of material, locations, sizes, spans and spacing of all new structural members (ridge, sheathing, roof and ceiling joists, posts etc..)
- * structural connections between addition and adjoining rooms
- * shear wall locations, lengths and shear wall schedule
- * continuous boundary element, blocking, strapping, etc..

EXAMPLE FRAMING PLAN

4. FOUNDATION PLAN

- * slab thickness reinforcing and underlayment;
- * dimensions of continuous footings, location of new piers and crawl space openings;
- * sizes, spans and spacing of joist, girders, and size of sheathing (for raised floors only);
- * shear wall types and locations;
- * connection of existing foundation to new foundation;
- * location of any embeds including post bases, hold downs and anchor bolts.

EXAMPLE FOUNDATION PLAN

RESIDENTIAL ADDITIONS

REQUIRED INFORMATION AND EXAMPLE PLANS (Continued)

5. CONSTRUCTION SECTION

- * ceiling height of addition
- * insulation materials for wall, floor and attic, interior and exterior finish;
- * sizes, spans and spacing of new structural members for roof, floor and foundation assemblies.

EXAMPLE CONSTRUCTION SECTION

FRAMING SECTION A-A

6. ELEVATIONS

- * exterior views of addition include attachment to existing;
- * roofing material and pitch;
- * specifications on finish materials (stucco, siding etc.);
- * height of the structure measured from the average grade;
- * location of new and existing windows, doors and attic ventilation openings.

REQUIRED INFORMATION AND EXAMPLE PLANS

(Continued)

7. CONSTRUCTION DETAILS

- * details showing connection of new to existing;
- * foundation construction, anchor bolts, grade separation, reinforcement etc...;
- * typical shear transfer details, shear wall, top plate, floor, roof, new to existing interior shear wall, shear wall to roof sheathing transfer;
- * special detail such as stair framing, deck construction, ridge beam, post connections, hold down anchors, weep screed etc...

8. CONSTRUCTION NOTES

- * general code information for fire life safety;
- * structural specifications for the grade of building materials- lumber, steel, concrete and masonry;
- * non-structural component specifications such as piping to be used or finishes to be applied, mechanical systems, etc...;
- * list any special inspections or required structural observations required;
- * nailing schedules.

9. ENERGY CONSERVATION

- * size of water heater, AC unit and heater;
- * California energy compliance documentation.

10. ELECTRICAL, PLUMBING, MECHANICAL

- * items must be noted and located on the plans.

REQUIRED CALCULATIONS:

1. STRUCTURAL CALCULATIONS

- * Structural calculations are not required when proposed residential building complies with the conventional construction requirements of the California Residential Code. Plans may be prepared by designers, contractors and homeowners who have code and construction knowledge and experience.

2. ENERGY CALCULATIONS

- * Energy calculations are required when the volume of a building has been increased. Lighting compliance is required for all installed lighting. Please review the city residential lighting compliance hanout.

<p>General Information</p> <p>These notes and drawings have been completed to assist the user in complying with plan and construction requirements for certain types of construction frequently encountered for residential construction. It is recognized that the particularity of the materials and details in the construction of various city requirements will not be used in the construction of various city requirements, inspection, and plan corrections.</p> <p>The information contained herein is not intended to be a substitute for the professional judgment of the designer. The user of this information is advised that the use of the typical construction details herein may require modification to meet the specific requirements of the project. The designer, engineer, architect, or other professional responsible for the design of the project is responsible for the design of the project.</p> <p>By following the guidelines listed herein, plans for a typical residential building may be prepared without the need of a professional Engineer, Architect, or Designer. However, the user is advised that the use of the typical construction details herein may require modification to meet the specific requirements of the project. The designer, engineer, architect, or other professional responsible for the design of the project is responsible for the design of the project.</p> <p>1. Structures less than 10 feet in height, not containing light, gas, or other hazardous materials, shall be constructed in accordance with the provisions of the California Residential Code, Chapter 7, Section 701.01 through 701.05.</p> <p>2. Structures 10 feet or more in height, not containing light, gas, or other hazardous materials, shall be constructed in accordance with the provisions of the California Residential Code, Chapter 7, Section 701.01 through 701.05.</p> <p>3. Structures containing light, gas, or other hazardous materials, shall be constructed in accordance with the provisions of the California Residential Code, Chapter 7, Section 701.01 through 701.05.</p> <p>4.
